When I was young I was bored 'round the clock  
I began to dress in strange way  
And I started getting bad grades in school  
'Cause of bad companies that for me were cool

Welcome to the crew  
If you have nothing to lose  
Welcome to the crew  
Your life won't be the same

When I was 18 I had problems with my job  
And my boss was not happy nor satisfied  
Instead of thinking about my job  
I thought about the weekend parties with my friends

Welcome to the crew  
If you have nothing to lose  
Welcome to the crew  
Your life won't be the same

I am now drinking next to you,  
We now consider the old times' shows,  
With a beer in my hand  
I remember the first day, a simple record by Ramones.  
I wanna be sedated and Blitzkrieg Bop,  
Then Holiday In Cambodia by Dead Kennedys  
The beers on the square and my friends with their  
skate  
I can never forget, I cannot forget

Welcome to the crew  
If you have nothing to lose  
Welcome to the crew  
Your life won't be the same
