

The Knocks "Brightside"

Visit "[Brightside](#)" on MotoLyrics.com

Sing it with me one more time

We've been working overtime
Looking for the active life
But something's got you feeling fine
This melody's been on your mind

Sing it with me one more time
And we all wanna make it to the bright side
So come on, and sing it with me one more time
And we all wanna make it to the bright side
So come on, and sing it with me one more time

(?) and full of light
Through danger zones and fearless flights
Trying to go with no end in sight
A melody that makes it right

Sing it with me one more time
[repeat until end]

And we all wanna make it to the bright side
So come on and sing it with me one more time
