Yeah, I know niggas ain't shit, so I treat them like I treat them  
So what, it's just a dick, and I leave him, I don't see him  
He going on my phone... saying I should meet him  
He had me in his world, I swear I couldn't leave him  
But... like the pizza  
I'm sorry, but if you ain't got no pepper, I don't need you  
And if you got a girl, you can tell her she could keep him  
Goodie eating pussy, I ain't got time to teach him  
I don't like these niggas, the money is so about these niggas  
Try to holler, I shook him like who was this nigger?  
You make me... with my posters naked  
Pretty pink, wet... ocean strake  
Have a nigga going broke just to feed the state  
Ten star chick rules, car keys all days!  
I'm just living!  
And it's incredible! Nigga I'm cold...

Bitches calling me daddy in the back of the Caddy, girl  
From the North to the East, all the way out Cally  
We'll be like:  
"California, we love you  
We run it... fuck you!"

Bitch please!  
Exhibit voice, check you, are you out of your mind?  
You just another catch of the days who fell for them lines  
Plus I'm showing out, ain't no going out, I'm on some chill shit  
You're looking for someone to chill with, or maybe be with  
That's exactly when I hit the kill switch  
I feel that need to give them force with a career spit  
Back to reality you're looking for a comma  
But I ain't playing no games, not the ones you wanna wonder  
I rather be in a lab and working on my crap

Filling some paragraphs with my people...  
No time for you hoes, you're looking for love?  
I see you with your head down, so why put up a red  
flag?  
Owe it to the next who knows how to act  
She fuck me good...  
Get the guts, another story you tell  
Another pussy is killed...

But I'm popping bottles with foxy models who like to  
swallow  
... and lames flames and make them holler  
My entourage, so many names, don't know what to call  
her  
Got lot of... who get brain like the scholar  
Got a lot of dollars, big faces, two big wallets  
Got a lot of places we could go, we should follow  
But if you ain't sucking a fucking girl, don't even  
bother!  
Wanna make... the Guatemala?  
I'm in your... of your hair...  
... but time is not a problem  
These girls... like Britney and Madonna  
... so hard like I just hit the lotto  
Walk them, suck them so hard, I make you call me  
father  
Pop that Gucci, and that Gucci Dolce and Gabbana  
Be a hootchie for this... your honor!
