Yo, yo, yo
Midwest to the next life
Your girl ain't the same, might upgrade her sex life
Gun cash and murder, no particular order
That... state of mind got me pimping your daughter
Now I represent the grind of the East
Middle finger... while I rhyme over...
Your pink game is pussy, you're a joke,
I'm not the on to provoke
Put down the ecstasy and coke before you end up
smoke
And if you're calling me a bitch, behind my back,
Then you're a bigger bitch!
Ain't nothing like a prop nigga, playing nigger rich
Since I was six years old became militant
I do bad things, plus I smoke weed cigarettes
And I should learn you, I...
I gotta be the most terrible Heathen in Eden
I'm scheming and plot a way to make some... this Eden
My bars are long and shattering your bones...
You ain't ready for war, my nigga...
You eat the cat and gave it ten strokes, you're ready to
snore
I beat the... like some good pussy, fuck her and leave
her
While you picture me like... up in the freezer
I make you a believer, the...
Lay your body under a din, and leave it to beavers...
Irrational, popping a couple capsules
... and all your rap shows deep with some assholes
Holler at your... homies are rolling up
... fuck your promoter up
You're over vagina, ready for pounding, nigga
You know that you're hot
I'm a thousand degrees below that, cold that!

See, the camera's going wherever... to hold that
Hotel rooms full of magnum weapons and cognac
For show that my... so flat
Call a comedy... your wallet is where your joke's at!
No rap, pull up with niggas that all toast clap

We're first in the truck, so big is like I put the boat back!
I... with hoes, that's all my coke bags
Stolen the spots we do the... wile your nose crack
Twice as gangsta, so a niggas call me G 2
... or I pee proof
Pee to a joint, niggas couldn't drink to it
... you need to track... back featuring Jesus
Jesus, why you had to let my leash loose?
Now I hunt the streets for me to think of my teeth tooth
Think it's magic...
Preachers think while you're asleep in a three piece suit
Call your freak dude, she'll tell you she don't need you
And how you always rape her... when at least do
Fuck her till... she sucked till her kneed blew
They know I'm an elite to the cake
Give all my head start, still...
I need you to hate, define rap, I think I'll be a janitor
Cause I got the keys to the state
You know the name, boys
In the game, running things and I even dump the
flames
My song just made noise
The weak ass punches, you niggas throwing...
You flip, we show up deep in the...
... guys know what it is before this... see a nigga die, do
it big
You're bitching the passenger...
While I'm pushing something cold like I'm driving in a
fridge!
