"Come when you call"

Visit "[Come when you call](#)" on MotoLyrics.com

Wherever you go
Darlin' I want you to know
That baby I'll come when you call
Don't you hesitate
Honey, no matter how late
Baby, I'll come when you call

When you're all alone
And feelin' blue
When you can't get up off the ground
When you need someone there
To help you see it through
I won't, won't let you down

Just send me a wire
Whatever your heart may desire
Baby, I'll come when you call
Just drop me a line
L.O.V.E. will do just fine
Baby, I'll come when you call

I just want to be the one you need
I'll do anything for you
I want to be the only one
To share all your dreams
And smile as they come true

No ocean's too far
Send me a letter in a jar
Baby, I'll come when you call
I won't miss a stroke
Darlin' I swear it's no joke
Baby, I'll come when you call

When everybody turns their back on you
I won't , won't let you down
