Sometimes it feels like, you're blowing kisses in the  
wind  
Broken, tiny, just a face, so insignificant  
Stand up, stand strong, open up your eyes  
Put your sunglasses on cause you're gonna be brighter  
than the sun  
Brighter than the sun, brighter than the sun  
I said brighter than the sun, brighter than the sun  
You know we're gonna outshine the stars, outshine the  
moon  
You're gonna shine, you're gonna shine  
You might not see it yet, but trust me we all do  
You're burning bright and brilliant baby no one's as  
beautiful as you  
Stand up, stand out, open up your eyes  
Put your sunglasses on cause you're gonna be brighter  
than the sun  
Brighter than the sun, brighter than the sun  
I said brighter than the sun, brighter than the sun  
You know we're gonna outshine the stars, outshine the  
moon  
You're gonna shine, you're gonna shine
