chorus : (ya'll dont hear me though ) 8x

1 verse : on the corner posted chilling,  
goons selling marijuana making millions,  
im just a kid who wanna spit like a llama,  
fill my bank with 3 commas, money long ass  
anacondas,  
spit hotter than a sauna, ice colder than a tundra,  
get a spaceship and fly higher than a condominium ,  
redo the past and travel back millenniums, in the 10am  
,  
im killing em, and this is just the minimum,  
im way above your average spitter, I better fly cause  
you guys just a caterpillar ,  
torturing my competition imma savage killer, confident  
that i'll never meet a rapper iller,  
uh,  
im positive my competitions little too none, I kill them  
for fun ,  
and plus my pitties little or none, I'm hot as the sun,  
and all these kids really my sons, I'm ill as they come ,  
you think its done but its really begun,  
i say it like

chorus : (ya'll donâ€™t hear me though ) 8x
