[1 verse] rapping was a hobby that quickly turned to a passion,  
Relaxing kicking it back and now I got the crowd clapping  
Re-tracking my last moves confused on what just happened  
Finally found myself and my wings just started flapping,  
So when these girls fronting my fam got my back,  
And when these bros switch up, I'm barely gon' react,  
Got all these people judging just by the way we act,  
So just know the day I leave I'll never be coming back,  
Back-tracking my average all this money that I'm stacking,  
And I wrote this fore I had it cause I knew that it would happen,  
Now I'm touring round the world and they want a little action,  
Rocking the latest fashion and the colors never clashing,  
Women saying they love me, actually pretty funny,  
They used to call me ugly, now all they want is the cuddy,  
Kicking it with my buddies, got them eating like they tubby,  
They told me that was hungry, now we here sharing money

Chorus: (you got to be happy why be mad, cherish your family and the  
Friends you have, you don't know the last time you'll see them, so you have  
Every reason ) 2x

[2 verse] to chill and live lavish, kicking it with the baddest  
From getting kicked out of parties to never kicking bad habits,  
I said everyday's a party like we living on campus,  
living a fairytale,  
I swear live in atlantes, now my city on the atlas,  
Counting up all the cactus, dudes were sleeping on me

but now they burning  
The mattress  
Here burning these verses with gasoline and some  
matches,  
And haters taking shots cause they think it's target  
practice,  
Practicing everyday to be the best in my age group,  
Going independent fore they say the label made you,  
The ones who say they love you are the ones who say  
they hate you,  
But now they chase you cause they see your a break  
through,  
But I'm but I'm, sticking with the people that I came  
with,  
Whenever I tour they be on the same trip, tell my girl  
don't trip I'm finnah  
Be back quick,  
No buts no ifs, you just gonna have to deal with it, uh, I  
prayed for this,

I'm made for this, this is my calling I'm just lucky that  
I'm here for this,  
So I'm sharing the love around, my fam and my friends  
I'm just happy you  
Stuck around
