intro : I hope 3x

I make you smile and laugh  
Everytime that we cross paths  
So this time lets make it last

Verse 1 : please remind how you became mine and I  
yours

The visions perfect like 2 fives thats times four  
Many fish in the ocean, I had mine time to explore  
Said theres many fish in the ocean, bout time I head  
back to shore  
Nore do I need these lovey dovey guppies on my rod  
Cause I kinda found a shark that caught me in her  
allure  
So I dont need no shawty telling me Im all they wanted  
Cause Im sure if I was poor  
I would probably get ignored  
I know that every boy wants to take you on a date  
And now since your with a rapper, your the girl they all  
hate  
And I know you hear the chatter, cause them girls is all  
fake  
But nothing really matters cause this here is all fate  
Like the star crossed lovers girl are you feeling a  
capulet  
Long lost lovers theyll kill us before we have to split  
Ill never find another, this feeling is so immaculate  
get off my magic stick, I have a chick, yall girls  
inadequate

Chorus : I hope 3x

I make you smile and laugh  
Everytime that we cross paths  
So this time lets make it last  
I hope 4x  
That this is one of a kind  
Baby steps girl take it one at a time  
Dont you stress girl, everything will be fine

Can we take a walk  
Can we take a stroll  
They say that lifes a highway

It can take a toll  
On your soul when you take to many paces  
you got my love locked down, Ill show you where the  
safe is  
The bases of love, yes its unstanding  
Comcast channel one, it could be demanding  
But I think were kind of expert when it comes to the  
planning  
Your right, time to bring it to the light like tanning  
And these girls were they really in comparing?  
You should know that your status is the only thing your  
sharing  
Cause baby Im all yours, promise your all mine  
And thats just on the real, I promise im online  
The best I ever had, even ari knows  
That you get my heart racing no cardio  
Ill be your winner when its all said and done  
So the race to your love, its time to watch me run

Chorus : I hope 3x  
I make you smile and laugh  
Everytime that we cross paths  
So this time lets make it last  
I hope 4x  
That this is one of a kind  
Baby steps girl take it one at a time  
Dont you stress girl, everything will be fine
