1 verse : there is no one like me,
day im finnah get my credit wonder when it might be,
lames R.I.P check them off like Nikes,
high up in the sky im wondering who I might see,
cause im, looking down at my opposers ,
they said its all luck but I never touched a clover,
go an look all over you'll never find no one over me ,
all I'm hearing is yesses Im guessing everyone knows
it's me,
Go from spitting locally to doing shows overseas,
squares shape shifting just so they can get to roll with
me,
this is the future I want for my present,
these royal fools donâ€™t think a fool can emerge
from a peasant,
I beg to differ

chorus : La La La La La (there is no one like me)4x

2 verse : I remember when I was innocent,
living so happy hoping one day I'd reminisce,
really what happened friends really dont give a sh,
really what happened my family got their distances,
single child never had a sis or brother,
so I got friends that felt like brothers from nother
mothers,
I love them and that's no homo, they stuck with me
through the bummers,
now it's sad how we can pass and act like we don't
know each other,
thats when friends turn into enemies, enemies turn to
friends,
because they want the money ,the money you finnah
spend,
bout now u got the power, the power is in your hands,
so no more following ya'll when I can be making trends,
transitioning from the kid to the man,
the best to ever do it yeah that is who I am,
Im so far gone you cant tell where I am,
finally got buzz and you can tell by the fans

chorus : La La La La La (there is no one like me)4x
