Intro: (this one for Bentnation)2x

1 verse: I'm on the road to the sky, they  
Can call it a highway,  
Coming at me sideways,  
Cause I'm paid like Fridays,  
I am my own guy,  
They don't want to see me rise,  
But I survive,  
Though everybody despised,  
But now I'm on my grind though,  
14 been rapping since I was Rondo's  
Number, coke feen spit crack like I'm in sopranos,  
Hunger got me eating tracks  
Where's your defense at with these combos  
And I know imma grow my wings  
And imma reach the heights of Apollo,  
I'm special, I told em I was special  
But they ain't never listen  
Nah they ain't never listen  
I told em I was special  
Nobodies on my level  
But they don't see my vision,  
I'm tryna make a difference

Chorus: started as a hobby  
Developed into a dream  
Then turned right into a vision  
Now this the life that we living,  
I've been working all day  
Big shout out to wale,  
Cause before I hit the cemetery  
I wanna be legendary, (imma change the world imma  
catalyst)4x

2 verse: I'm destined for that good life,  
My future's so bright  
Talking bout like  
4 chandeliers,  
Tryna show the world that I'm different than the others,  
That I'm more than a,

Ordinary rapper,  
Tryna paint a picture like Casanova,  
Boy I'm out of your league,  
Out of this world,  
Might just be passed the solar,  
System,  
Different from all you other guys,  
I'm on a mission,  
To visit other worlds beyond the sky,  
Cause this world's covered in lies,  
Alien just in disguise, open your eyes,  
I know they low, drop that blunt and let's get high,  
Cause we're special, I told yall that we special  
But yall ain't never listen but yall ain't never listen  
I told yall that we special nobodies on our level  
We all have a vision, and we gon make em listen, and  
we gon make em

Bridge: tonight we gon take control, cause yeah you  
already know  
Tonight we gon take you high, we gon take you higher  
Higher than you've ever been before, go and get the  
keys to success, unlock  
The door  
Yeah, yeah  
Are you ready (yeah)  
Yeah I'm ready (yeah  
Tonight we going up and ain't no way we going down

Chorus: started as a hobby  
Developed into a dream  
Then turned right into a vision  
Now this the life that we living,  
I've been working all day  
Big shout out to wale,  
Cause before I hit the cemetery  
I wanna be legendary, (imma change the world imma  
catalyst)4x
