### Verse 1:

You can tell Iâ'm New York, by the lingo or the indo that  
I blow  
Out my window, my brim low, I been dope, but you  
know  
I rap uptown, downtown, all around my city  
If you pissed off with ya weak bladders Iâ'm cutting out  
your kidneys  
Boy donâ't kid me, Iâ'm rock solid, Iâ'm gemstones  
and you not polished  
Letâ's talk knowledge, donâ't knock college, frequent  
flyer got flight  
Millage-  
From walking on the concrete, rhyming and Iâ'm on  
beat  
People want a piece of me, they took PCP now they  
Zombies  
Eat Assault with your bath salts, you messed with me  
then you asked for it  
My cash foreign, Iâ'm fast forward, you slow-mo,  
thatâ's past boring  
Iâ'm on fire that's butane, Iâ'm so true rock 2 chains  
Got a few dames, who donâ't do games, Iâ'm  
Bramzwig thereâ's no new names

Chorus: [(yow)4x we up, up and away] 2x  
(We shouting yeah, we shouting yeah  
(Ye)  
Cause we outta hea)3x  
[(Yup)4x we outta hea ]2x

### Verse 2: tryna live our lives with no distractions

Like clothes and fashion  
Bros and wives that are so attractive  
Holding knives cutting piece of the action  
Lines over your head like I wrote that accent  
So you never understand like I spoke that accent  
Tryna be a better man, you don't know my past tense  
I know my future gon' show advancements  
My flow's enhanced  
So don't lend your hand  
Cause you only tryna help when I done got fans

Every city, every town, every tribe and clan  
So they know it's bentnation, don't hide that brand  
So many temptations, aint phased by none  
Be ready for the pain cause the days might come  
Followed by the brighter days  
See the rays from the sun  
The new aquarian age, no king triton  
Aint afraid to die  
Kill me where I reside  
Death is a new beginning  
So begin to feel alive  
And believe in what you want  
Don't let anyone decide  
And do what suits you and don't you forget the tie  
They say I'm coocoo  
Guess I lost a few screws  
Stuck in my train of thought  
Who wouldve thought, choochoo  
Cruel truth  
Poopos  
On the happiness you bought  
Fought it off long enough  
With your jiujuitsu

Chorus: [(yow)4x we up, up and away] 2x  
(We shouting yeah, we shouting yeah  
(Ye)  
Cause we outta hea)3x  
[(Yup)4x we outta hea ]2x
