Chorus

This is what you call love, baby
This is what you call love my darling
This is what you call love baby
It's called love (x2)

Verse

I wake up in the morning
And all I see is you
Even though you ain't beside me
I'm telling you it's true
I see your smile
I hear your laugh
I really wish you're here
But what I'm trying to say is...

Chorus

I always try to talk to you
But you always walk away
When I get the chance to talk to you
I don't know what to say
My tongue is tied
My throat is dry
I've even lost my voice
Even though I've fumbled my words
I know what to tell you...

Chorus

I don't know what to call it
But it feels good
This is what people call it
I hope you do to

Chorus

This is what you call love, baby
It's called love
This is what you call love, baby
It's called love
