## Verse 1

Feels like the tail of winter  
When the end is so cold  
Yet another frost has come  
And I have no home  
Knowing that you're gone for good  
Sets in like the snow  
Am I allowed a pardon  
If the fault is my own

## Chorus

Oh my the snow is fallin'  
And the winter's so cold  
Love is what we fall in  
Then we end up alone

## Verse 2

Sorry I was blind to see  
The signs before me  
The ice was building up  
And our love was winding  
I knew it wasn't far too long  
Before you'd scold me  
I just never thought  
I'd feel so bleak

## Chorus

## Bridge

...Alone  
...Alone

## Chorus 2x
