"Good Things Never Die"

Visit "[Good Things Never Die](#)" on MotoLyrics.com

In case of revolution, praise the nations in our honour,
you're heartless, i'm not dead. In ages of
disolution, fight for these moments, don't call for calm.

Where did I lose the movement of this dance?

Even dead I will fight for this long hard way as a knight
that I am. Give me what I want and I will march. If you
care for me. Don't worry. You will know. Good things
never die.

I don't need someone praying for me. Proud of me. I'm
still alive. I'm screaming this song tonight honoring the
fallen.

Where did I lose the movement of this dance?

Even dead I will fight for this long hard way as a knight
that I am. Give me what I want and I will march. If you
care for me. Don't worry. You will know. Good things
never die.

Oh oh oh oooh! Good things never die Oh oh oh oooh!
Good things never die Revolutions for their solutions
are eventually fine. put your hands up in the air and
keep your head up (we will never die!)

Even dead I will fight for this long hard way as
knight that i'm. Give me what I want and I will march. If
you care of me. Don't worry. You will know. Good things
never die.

Never die! Never die! Good things never die.
