Baby, it's not the same without you
'cause no matter .. just can't get you of my mind.

I'm sitting here and wondering,
If I'll ever see you again,
And part of me so uncontent, my mind, body and soul
so restless,
I need you like the flowers need the rain,
Since you've been gone things ain't the same,
And the thought of you, just made me insane, over and
over again.

Chorus:

Just like the sun, that shines upon the world,
Like a little child when he speaks his first words,
Baby that's how I feel, when I think of you,
But you don't hear me though,
And like a Romeo, make the world to Juliette,
And like Caspar and Simpson, on the first day they've
met,
Baby that's how I feel, when I think of you, but you don't
hear me though.
Baby come to me, I'll be all you need,
Can't you see that I'm a mess without you,
You stay constantly on my mind,
I'm going crazy, crazy, crazy without you.
Baby come to me, I'll be all you need,
Can't you see that I'm a mess without you
You stay constantly on my mind,
I'm going crazy, crazy, crazy without you.

On my wall hangs your picture and only Lord knows
How much I miss you, remember when we gave our
word,
Say word: shh, it's top secret now,
How you gave me all of you,
Now ..something special and now is you,
When love is built no one can bear it down,
Not even the big bad wolf can ..and blow us down.

Chorus:

Just like the sun, that shines upon the world,
Like a little child when he speaks his first words,
Baby that's how I feel, when I think of you,
But you don't hear me though,
And like a Romeo, make the world to Juliette,
And like Caspar and Simpson, on the first day they've
met,
Baby that's how I feel, when I think of you, but you don't
hear me though.
Baby come to me, I'll be all you need,
Can 't you see that I'm a mess without you,
You stay constantly on my mind,
I'm going crazy, crazy, crazy without you.
Baby can't you see, I'll be all you need,
Can 't you see that I'm a mess without you,
You stay constantly on my mind,
I'm going crazy, crazy, crazy without you.
You got me going crazy, I'm crazy, crazy, crazy, crazy
without you,
(you got me going crazy)
See I'm losing it and I'm breaking down.
crazy, crazy, crazy without you (down, down, down,
down,)
I'm going crazy baby, se I'm breaking down, and I'm
losing my mind, baby
Baby come to me, I'll be all you need,
Can 't you see that I'm a mess without you,
You stay constantly on my mind,
I'm going crazy, crazy, crazy without you.
