You got me wrong, completely wrong
You got me wrong, completely wrong

I hope you're happy where you are
You've been heading there for some time
It's not like you to complain
But then it's not like you imagined
Life has changed but you shouldn't do
I'll remain the same around you

Don't be blind, look where you're coming from
It's all you ever needed
(You got me wrong, completely wrong, completely wrong)
You'll find fault with me warning you
Advice you should have heeded
(You got me wrong, completely wrong, completely wrong)
(You got me wrong, completely wrong, completely wrong)

Over time you can find a way
Stop looking out for some sign
There's a place now where you belong
Just to make it right in your mind
I'm just trying to make you see
You're the only one you have to be

Don't be blind, look where you're coming from
It's all you ever needed
(You got me wrong, completely wrong, completely wrong)
You'll find fault with me warning you
Advice you should have heeded
(You got me wrong, completely wrong, completely wrong)
