My latest little mood
A darker shade of blue
Still I draw closer to you

My pretty little dress
Begins to look a mess
Infatuation come through

Enlighten me with you
Look at things the way you do
Indulge me please
I'll take the breath you breathe

Take heart I'm telling you
My life has come too soon
But somewhere I'll find some time

In every other way
You've told me what to say
These final words now are mine

Enlighten me with you
Look at things the way you do
Indulge me please
I'll take the breath you breathe

Make the dream come true
Show me how to comfort you
Indulge me please
I'll take the breath you breathe

You may have walked away
But we're still as close
As when I gazed
Deep in your gentle eyes

Enlighten me with you
Look at things the way you do
Indulge me please
I'll take the breath you breathe

Make the dream come true

Show me how to comfort you
Indulge me please
I'll take the breath you breathe

Enlighten me with you
Look at things the way you do
Indulge me please
I'll take the breath you breathe

Make the dream come true
Show me how to comfort you
Indulge me please
I'll take the breath you breathe

Enlighten me with you
Look at things the way you do
Indulge me please
I'll take the breath you breathe

Make the dream come true
Show me how to comfort you
Indulge me please
I'll take the breath you breathe
