### Verse

Wake up baby, the sun is up and the sky is blue,  
It's Sunday and we ain't got nothin' better  
to do.  
I've got my favorite blue jeans on and your old t-  
shirt.  
Let's drive until the gravel turns to dirt.

### Chorus

Scream it out as loud as you can,  
Grab your wild side and take my hand.  
Forget the world lose track of time.  
All you have to be is mine.  
Say you want to do something crazy, and I will be your  
therapy baby.

### Verse

In the middle of finding who we are, love is easy to  
forget.  
It gets lost between getting older and not wanting  
to grow up yet.  
So let's take a day to ourselves to remember why,  
We've held on this long and will keep fighting until  
darkness turns to light.

### Chorus

Scream it out as loud as you can,  
Grab your wild side and take my hand.  
Forget the world lose track of time.  
All you have to be is mine.  
Say you want to do something crazy, and I will be your  
therapy baby.  
I will be your therapy baby.
