The way you hold your hat  
The way you tip your toes  
Whenever things go wrong  
Show me what you know

There's no need to worry  
Shine your light on everyone

The way you shake your head  
I read you loud and clear  
The conversation stops  
Nothing keeps you here

When you're miles and miles away  
Ain't no need to worry  
Shine your light on everyone

When you're miles and miles away  
Ain't no need to worry  
Shine your light on everyone

The way you shake your head  
I read you loud and clear  
The conversation stops  
Nothing keeps you here

Nothing keeps you here

When you're miles and miles away  
Ain't no need to worry  
Shine your light on everyone

It all comes down to the way you make me feel  
It all comes down to the way you make me feel
