Visit "[Happened To Me](#)" on [MotoLyrics.com](http://MotoLyrics.com)

### Verse 1:

I have myself to blame  
It was all my doing..  
My love for you was insane  
Now I'm the one who's losing  
Lets not review my past mistakes  
trying not to make them now is much too late  
My vision is much clearer now!

### Bridge:

I can't keep lying to myself  
Saying there's nobody else  
When I know just what you're doing,  
Who the hell are you fooling?  
But i won't cry another day,  
Wish I could go back to the place  
Before you hurt me, cause you ain't worth it

### Chorus:

I'm taking my heart and walking out the door  
This time I want look back  
Cause you're the best thing that I wish never happened  
to me  
I do much better, better than what I did before  
Cause you're the best thing that I wish never happened  
to me

### Verse 2:

I should have seen the signs,  
I was blinded by the bright light  
But you had blurs in yoursâ€¦  
But you were a star in my eyes  
Tracking me with your trust  
While another is laying in your arms  
I see much clearer now

### Bridge:

I can't keep lying to myself  
Saying there's nobody else  
When I know just what you're doing,  
Who the hell are you fooling?  
Won't cry another day,

Wish I could go back to the place  
Before you hurt me, cause you ain't worth it

Chorus:

I'm taking my heart and walking out the door  
This time I want look back  
Cause you're the best thing that I wish never happened  
to me  
I do much better, better than what I did before  
Cause you're the best thing that I wish never happened  
to me

Verse 3:

I wanna thank you for the lies,  
I wanna thank you for the hurt you gave  
I took a shot at the game  
And I lost it all!  
So the only thing left to do  
Is get back all the love I gave to you!

Chorus:X2

I'm taking my heart and walking out the door  
This time I want look back  
Cause you're the best thing that I wish never happened  
to me  
I do much better, better than what I did before  
Cause you're the best thing that I wish never happened  
to me
