I've been waitin', anticipatin'
Don't make me wait, umm, don't make me wait

Tick tock feelin' kinda' hot
No need to knock, knock I left the door unlocked
Follow the petals to the bubble bath
Pop the Alize and don't you keep me waitin'

There's a tatoo on my back, use it like a map
It points the way down to my love
Once you view the cat, ain't no turnin' back
It's on it's on till dawn
Baby start up at my earlobe, slide down to my
collarbone
Go down lower to my belly ring, a little lower to my
heart
Take a trip up to my mountain, don't be scared to taste
the sea
Take your tongue and blaze a trail down, a little lower
to my heart

In, out that's the way we go
Scream shout make me lose control
We can take it low down on the floor, till we both
explode
Stay just where you are, I wanna feel you in my heart

There's a tatoo on my back, use it like a map
It points the way down to my love
Once you view the cat, ain't no turnin' back
It's on it's on till dawn
Baby start up at my earlobe, slide down to my
collarbone
Go down lower to my belly ring, a little lower to my
heart
Take a trip up to my mountain, don't be scared to taste
the sea
Take your tongue and blaze a trail down
A little lower to my heart

Take your time and do me right
Player don't you rush, 'cause we've got all night

Show me that the man in you knows just what to do
Brake it down, brake it down yeah
Brake it down, brake it down, take down
Go down, here that sound
Brake it down, brake it down yeah
Brake it down, brake it down
Brake it down, take it down

Take a trip up to my mountain, don't be scared to taste
the sea
Take your tongue and blaze a trail down
A little lower to my heart
Baby start up at my earlobe
Go down lower to my belly ring, a little lower to my
heart
