[Verse 1]

Should've known better than to hear your lies  
Should've known you would only make me cry  
Should've known you were too good to be true  
Should've known I was too good for you  
No one ever made me feel this way  
I lost myself in you from the very first day  
Now I'm left feeling so confused  
What am I gonna do?

[Hook]

Should I go, should I stay? I don't know  
This is what I ask myself  
Call me a fool for loving you  
Please tell me where do I go from here?  
Where do I go?  
Where do I go?

[Verse 2]

Tell me how did we end up this way?  
Never miss a good thing til it's gone away  
Sitting here tryna reason with myself  
While you were here thinkin' 'bout someone else  
Sayin' you sorry won't take away the pain  
'Cause things will never ever be the same  
'Cause I was your everything and you were my  
everything  
And you've got my heart, you see, baby

[Hook]

[Verse 3]

I don't really wanna say bye-bye  
There's so many reasons why  
I don't ever wanna lose your love, baby  
When trust walks outside the door  
It makes it so hard to believe you any more  
This shouldn't be  
Oh, baby, tell me

[Outro]

Where do I go from here?
