How did I get in this tangled web,
You left me mangled in this tangled web,
Tried to crawl up the side,
It was too wide you left me for dead

Why did you lie about it
You make me sigh about it
Is there something new?
Tried to crawl up the side of this tangled web

You stomped on me with your spider legs
I can't get you out of my head
Don't leave me here along
Hanging by a thread

I twist and I turn and I wriggle and I squirm
Don't leave me here
Don't leave me here alone
Don't leave me here
