The stars are shining  
As the moon is rising  
Stay where you are

As I close the curtains  
Nothing is for certain  
So stay where you are

\\Keep your eyes wide open  
(And leave them both tight)  
I can't help but think  
(This might be the last time)\\

Daylight's approaching  
And my mind is coasting  
Out of control

These days without you

Make me start to cloud you  
Out of control

\\Keep your eyes wide open  
(And leave them both tight)  
I can't help but think  
(This might be the last time)\\

(Out of control)  
(Out of control)

Keep your eyes wide open  
(And leave them both tight)  
I can't help but think  
(This might be the last time)
