

## Lifeless Drive "Dragonfly"

As the sun is rising I know I see you in the sky as a  
Dragonfly and I know she can see you as you go. Are  
you dying, I think no but flying as we walk the sky.  
I see- it's feeling in you. Believing, I know. Be free now  
and fly- still crying inside. No reason to hide- both  
flying inside. 'She guides me back home- then flying as  
we walk the sky.'  
(chorus) Fly- Dragonfly. Go- always know the truth.  
Following in you, always you, believing in you.  
In time, it's leaving your side. The spirit in mind still  
crying inside. The memories collide. Be free now and  
fly. You always were my guide.
