Up to it- up to it- on the ground. People around me have
to frown. No excuses, get away. Empty mouth cuz
what's there to say? Pull me out- on the floor. When the
time comes, i'm out the front door. Up the street-
bloody feet. Nasty feeling lies in the heat. Sun draws
down. Empty sound. No one knows me- now i'm
unfound. Empty road- Lifeless Drive. I'm unknown but
i'm still alive.
(chorus) Go away- go away.

Bleeding- bleeding in my heart. Don't know where to go
from the start. Spinning head- in my bed. I still don't
know what I have said. Reading lips. From the tips. In
my ears, losing fears. Running far, shooting star.
People notice when I go hard. Hardly fame- in my
name. No one knows me- i'm not the same.
