Lifeless Drive, you're the one. The only one that makes  
me run. I'm alive but won't survive. You give me vibes in  
Lifeless Drive. Run, i'll run far away with you.  
But I can't go- can't run from my fears. Nothing else to  
know, won't leave you in tears. I need you now. Now,  
now.

Lifeless Drive, you're the one. The only one that makes  
me run. I'm alive but won't survive. You give me vibes in  
Lifeless Drive. Run, i'll run far away with you.  
But I can't die. There's nowhere to hide. All I hear is lies  
when you're on my side. I need you now. Now, now.
