What if I leave. What if I breathe. Would you care about me. What if I go. What if I know. Would you dare look at me. What if I try. What if I cry. Would you look up at me. What if I send. What if we end. It's pretend- unlike me.

...but would you run away. Would you dare- love me.

What if I was in. What if you win. Would you know what I feel. What if I will fall. Your name's on the wall. Did you know I can't heal. What if I mind. What if I was kind. Would you still be so blind. What if we're a pair. Memories make you scared. What if that made you care... Would you dare come here...
