Ain't love crazy

Ain't love crazy

Ain't love crazy

Ain't love crazy

When we first kissed I laughed inside

Cuz' I knew I was way too wise

I knew I could outsmart my soul

I lived and learnt to never lose control

I thought I'd had it down then looked at you and found

That I don't know a thing

Cuz' once I saw your face I lost all time and place, yeah yeah yeah ohâ€

Ain't love crazy

Things once hazy are clear as day and night

I punched and kicked but didn't really live

Till' you showed me the light

History has a million fools

Who though they could rewrite the rules

Thought I could kiss you then go free

Then wake up you're the only one for me

I'm living for your kiss my only source of bliss

The bird that makes me sing

My song for you is all
It rhymes and I'll sing a million times, yeah yeah yeah ohâ€¦

Well, Ain't love crazy
Things once hazy are clear as day and night
I punched and kicked but didn't really live
Till' you showed me the light
And oh- our chemical make up never breaks up
And oh- forever I'll wake up next to you

Well ain't love crazy
Things once hazy are clear as day and night
I punched and kicked but didn't really live
Till' you showed me the light

Well aint love crazy crazyâ€¦

Well aint love crazy
Things once hazy are clear as day and night
I punched and kicked but didn't really live
Till' you showed me the light
