You picked me up when I had fallen
You saved the heart that was previously stolen
by someone who only lived to fight
by someone who brought me to tears at night
You showed me the right way, how it could be
I was blind to everything but dark before you see
for someone who only lived to play
for someone that hurt me day after day

So dont you worry, I'm over everything but you
In fact I'm quite starstruck because I'd never of had a
clue
That I would be worthy of such perfection
You have become the only object of my affection

Words can't justify everything you are
I just wish that I had chose you from the start
coz someone broke every piece of me
coz someone fed me lies I believed
I'm so much happier and stronger every day
Swept me off my feet, blew everybody else away
You're the one I've chosen to live for
You're the one I crave more and more

So dont you worry, I'm over everything but you
In fact I'm quite starstruck because I'd never of had a
clue
That I would be worthy of such perfection
You have become the only object of my affection
You have become the only object of my affection
