(Leigh-Jesy)

She captures her reflection that she first time mirrored to the floor
Her image is distorted screaming "Is it worth it anymore?" No No No
Are you scared of the things that they might put you through?
Does it make you wanna hide the inner you?

(Jade)

You're not the only one so let them criticize (Ah ah)
You're untouchable when you realize, oh oh oh

(All)

Change, change your life, take it all
We gonna stick together, know we get through it all
Change, change your life, take it all
You're gonna use it to become what you've always known
(Become what you've always known)

(Leigh-Jesy)

His body ... a flicker light nobody wants to know his name
Just another sober feelings but nobody that's there for the pain, no no no
They can whip you, bring you down, down to the sides
But they will never get to the heart you hold inside hmmm

(Jade)

You're not the only one so let them criticize (Ah ah)
You're untouchable when you realize, oh oh oh

(All)

Change, change your life, take it all
We gonna stick together, know we get through it all
Change, change your life, take it all
You're gonna use it to become what you've always known
(Become what you've always known)

(All)

Change, change your life, take it all
Change, change your life, take it all

(Leigh)

You got the right to show the world
Something never seen
We wanna hear you scream it out
You're not alone

(All)

Oh oh oh

Change, change your life, take it all
We gonna stick together, know we get through it all
Change, change your life, take it all
You're gonna use it to become what you've always known
(Become what you've always known)
