(All)

Hey, how ya doin'? Sorry you can't get through  
Why don't you leave your name and your number  
And we'll get back to you

(All)

Hey, how ya doin'? Sorry you can't get through  
Why don't you leave your name and your number  
And we'll get back to you

(Leigh)

Ain't got no time for what you think can be described as love  
How could you hold on me, you're missing me, I've had enough  
It's been so long since you have treated me like I deserved  
So long, baby I'm gone, you can leave a message for me after the tone

(Jesy)

You called, I missed it  
You called, I missed it,  
You called, and I missed it,  
Never get back and you called, I missed it

(All)

Hey, how ya doin'? Sorry you can't get through  
Why don't you leave your name and your number  
And we'll get back to you

(All)

Hey, how ya doin'? Sorry you can't get through  
Why don't you leave your name and your number  
And we'll get back to you

(Perrie)

I'm through will wish the things with you and me could be so good  
Time to wake up or no make ups got make me fool  
Too much history now it comes down to what things  
So alone, baby I'm gone, you can leave a message for me after the tone

(Jesy)

You called, I missed it  
You called, I missed it,  
You called, and I missed it,  
Never get back and you called, I missed it
