All these sleepless nights, my mind just wanders
A bitter end ignites my surrender
How I need you, I'm shattered like before
Still funny how you're all I'm ever after

In her beauty I will lose myself tonight
I'm lost inside, I'm lost inside her eyes (inside her eyes)
Wishing the lies I told myself came true
I must be lost, lost inside of you (inside of you)

The stars have never shined their light on me
It breaks my heart in pieces can't you see
Cross my heart and hope to die it'll ease the pain it'll
ease my mind
Did you expect me, not to fall for you?
In her beauty I will lose myself tonight
I'm lost inside, I'm lost inside her eyes (inside her eyes)
Wishing the lies I told myself came true
I must be lost, lost inside of you (inside of you)

(Bridge)

In her beauty I will lose myself tonight (diamonds)
I'm lost inside, I'm lost inside her eyes (inside her eyes)
Wishing the lies I told myself came true
I must be lost, lost inside of you (diamonds)
