This one's for the girl that I see at the coffee shop
Who knows my name and looks so hot
I always get an extra shot and smile for free

And this is for the girl, so sugar sweet
At the bus stop waiting for the 23
She's so shy, I wish she'd notice me

This one's for the girls x2

This one's for the girl in the pub sitting next to me
She spends too much on the fruit machine
She drinks me under the table every time

And what about the one from around the way?
She's not all that, but that's okay
She talks to tree's but still, she blows my mind

Woah woah woah ohh
There's nothing better
Woah woah woah ohh

This one's for the girls
I can't stop thinking about you
This one's for the girls
Life would really suck without you

This one's for the girls, girls, girls
All around the world
I love to love to love, love to love those girls

And this one's for the girl at the club in the trilby hat
Standing up on the bar shaking this and that
Even though she's got that big exam at 8

And here's to all those office girls
From the secretaries to the CEO
Baby when you coming home?
Coz I can't wait

Woah woah woah ohh

There's nothing better
Woah woah woah ohh

This one's for the girls
I can't stop thinking about you
This one's for the girls
Life would really suck without you

This one's for the girls, girls, girls
All around the world
I love to love to love, love to love those girls

I love to love those girls

Huh, listen
I love those Scottish girls
I can't resist the Irish girls, and
The Welsh and English girls
Haha, and don't forget the Essex girls

No matter where I go
No matter what I do
The only thing I know
It's all about the girls

This one's for the girls
I can't stop thinking about you
This one's for the girls
Life would really suck without you

This one's for the girls, girls, girls
All around the world
I love to love to love, love to love those girls

(This one's for the girls)
I can't stop thinking about you
(This one's for the girls)
Life would suck without you
(This one's for the girls)

Ohh
I love to love to love, love to love those girls
