Awake when you sleep  
And deeply asleep when you live  
Not sure what's real  
But someone whispered in your ear

Butterfly, butterfly spread your wings  
Butterfly, butterfly you can change all things

Awake when you sleep  
And deeply asleep when you live  
Going through life hypnotized  
Like a puppet on strings  
3, 2, 1 wake up now  
This is real life  
You're not a victim  
Just under the spell of your own mind

Butterfly, butterfly spread your wings  
Butterfly, butterfly you can change all things  
Butterfly, butterfly spread your wings  
Butterfly, butterfly, you go chase your dreams
