Is it rejection that you fear?
Does the heavy smoke cloud bring you near?
Why are you walking on your toes?
You had me from your first hello

Don't be afraid to change your skin
And give some light to what's within
I know you better than you do
The question is: will you know you?

Why do you hide in fancy cars?
I only dream about your arms
Why do you feel you need to lie?
You had me from your first goodbye

Don't be afraid to change your skin
And give some light to what's within
I know you better than you do
The question is: will you know you?

Know you, know you
Know you, know you

Don't be afraid to change your skin
And give some light to what's within
I know you better than you do
The question is: will you know you?
