Love, hope, war
Tell me where we go from here
Tell me where we go from here
We started off well
Such a shame that it has to end
Even when it never began
It never began, it never began

Pretending to have the patience
Pretending time ain't wasted
Ain't nobody told me this would happen?
Well it happened

Let our love pass by (by)
Like shooting stars
Will this love survive?
Or will it die?
Or will it die?
Either way, we will be covered in stardust
We will be covered in stardust
In stardust, in stardust

Living for the same shit
I ain't gonna make it
I ain't gonna make it
Gonna make it, gonna make it
Let our love pass by (by)
Like shooting stars
Will this love survive?
Or will it die?
Or will it die?
Either way, we will be covered in stardust
We will be covered in stardust
In stardust, in stardust
