I said it  
I didnâ€™t mean it thou  
We made it, happen  
We just moved too fast  
We underestimated the power of love,  
Now I canâ€™t live with the circumstances

You are the one  
That I Think about bae  
You are the one  
That I love

I canâ€™t imagine myself, without you by my side  
I canâ€™t even live without you, you, you

If I had a wish  
Iâ€™d wish us back  
Let me lay it down  
And Imma love you babe  
Say you promise, that weâ€™d last forever  
Guess we was never bound to be together,

You had me wrapped around your finger  
No wonder why I keep coming back, keeping coming  
back, keep coming back  
Must have fell hard maybe, didnâ€™t want it to end  
baby  
You are the one  
That I Think about baby  
You are the one  
That I love

You are the one  
That I Think about baby  
You are the one  
Yeah

You are the one
