"Shine On"

Visit "[Shine On](#)" on MotoLyrics.com

We should shine a light on
A light on
In a book I write on write on
He was right on
We should shine a light on
A light on
In a book I write on write on
It was right on
We should shine a light on
A light on
A book I write on write on
He was right on

Uh now
They lost it I find it
We leave 'em astounded
Asking me how you so fly
But you still so grounded
I reply I died inside
resurrected a beast
Leave 'em deceased
Music's in my jeans like a crease
Got it capiche
Hungry as hell tryna eat now
Success is the only thing that can complete us
Grinding to free us
The beat knocking like a fetus
Close your eyes
Open up your ears so you can see this
Now I've accepted I'm not from the hood
Cuz selling crack and busting caps don't make my raps
good
See this is me
Hello G I see repping MD to the fullest
Push us to the limit but never pull us now
I can't wait 'til I see my name in neon
That fly shit I be on
Flow for eons
Every day I take chances
Celine Dion
Said every day I take chances

Celine Dion
Let's get it

I'm a diamond in the rough
But I shine like disco
Surrounded by greasy people
Like I diced in the Crisco
I haven't signed yet so tell me where does the rest go
Hop a million percent until they finally hear this though
Bumping it up in their city like oh my disco
My business get better every year like fiscal
Fuck a pad and a pen are like my only utensil
I'm original see but they trace like stencil
A stain in the game but you fade like pencil
Biting off of my rhymes that ain't even an insult
Cuz you couldn't produce and in the end it's just your
fault
It takes 3 million years for a diamond to shine
I did it in 21 see I'm ahead of my time
Cuz when I flow the crowd never roll
Cuz I rock
On the road of success haters in my blind spot
Cuz I got no time to bullshit

We should shine a light on
A light on
On a book I write on write on
It was right on
