(TiRon)

See

Now I just got out this relationship

Cause baby couldn't relate to shit but money, cars and jewelry

And usually I got it on deck

But how can I get to the root of her love

The root of our love

If all she want is the clubs

And all she want is the parties

And already she into drugs

Already she's into stuff that R rated movies don't show

Momma don't know about it so..

Fuck it, she do it.

"Fuck is you doin?", she say

"Cant be a lame!", she say

She hate it when niggas don't notice her

So its her focus to go in these boutiques

Keep spending and spending and trying to blend into these crowds

Trying to stand out she turned me down

Then turnt me down now she burnt

I learned a lot with her, tried not to be bitter but damn

Iâ€™m trying to live life, Iâ€™m trying to get love

Iâ€™m trying to get over it, know it ainâ€™t easy

butâ€!

CHORUS

She ain't my type, she ain't my type

And no

She wasn't right she wasn't right

And no

She live a life I don't respect

Live a life I don't respect

Get it right or bitch get left, yeah!
