Try to walk
Try to run
Try to fool everyone
To imply that you were fine is pitiful

So I give chase but you were too fast
Try to lose track of your past
Too far gone to notice my hands
Walking on broken glass
The reason why you survived was a miracle
So I made a call to your front door
Telling you I'm never gonna go far

And under us the river subsides for you
Whenever you cry look above, the angels will fly for you
Cause you're the one
You can call on me for all of the dark you fear
And I am here, to start anew
Before you too comes undone

I woke up I am just a man
All I have is these two hands
I took on the world when you ran
I have fire water and air
With you in mind, I'll move space and time to heal you

So I sent a letter to your front door
Telling you everything I said before

And under us the river subsides for you
Whenever you cry look above, the angels will fly for you
Cause you're the one
You can call on me for all of the dark you fear
And I am here to start anew, before you too comes
undone
Cause you're the one.

Step by step we go, faraway from trouble
How I wish you could see what u never see

And under us the river subsides for you

Whenever you cry look above, the angels will fly for you
Cause you're the one
You can call on me for all of the dark you fear
And I am here, to start anew before you too comes
undone.
Cause you're the one

Cause you're the one.
