Heavy breathing  
What's this feeling  
Never used to act this way around you  
I'm afraid of  
Digging deeper  
'Cause if I fall  
I might lose it all

It's the beginning or the end, I know  
Should I leave or should I go for broke  
Don't wanna lose you but I can't go on  
Without knowing  
You know me better than I know myself  
I'm about to burst, need your help  
Don't wanna lose you but I can't go on  
Without knowing

Now nothing could be like what it was before  
When everything's said and done I need to know  
Do we even matter to you

I can't choke it or keep my focus  
'Cause it's too late  
I can't just walk away  
Break this silence, stop this hiding  
'Cause all I want to is find the words to tell you

It's the beginning or the end, I know  
Should I leave or should I go for broke  
Don't wanna lose you but I can't go on  
Without knowing  
You know me better than I know myself  
I'm about to burst, I need your help  
Don't wanna lose you but I can't go on  
Without knowing

Now nothing could be like what it was before  
When everything's said and done I need to know  
Without knowing

Now nothing could be like what it was before  
When everything's said and done I need to know  
Do we even matter to you
