Where we go, I don't care, no
It's right now and we're right here, oh
Under the streetlights, standing face to face
I'm losing sense of time and space
Don't want to move
Why can't I stay 'cause the chemistry is of the chain
I'm looked in a box only you and me
Wish I could throw away the key

I know this moment will be over
Tomorrow comes when we are sober
Will we feel the same or let it be
Will you be there
The night is almost getting over
And I don't want us to turn colder
I want to wake up with you next to me
Will you be there

On our way, I can't believe that I'm kissing you
You're touching me and I can't imagine to be somewhere else
I'm all in with no regrets, so
So here we are but still I can't let go of the thought of losing you, no
I wonder if we're gonna stay this way
Will you remember what you promised me, oh

I know this moment will be over
Tomorrow comes when we are sober
Will we feel the same or let it be
Will you be there
The night is almost getting over
And I don't want us to turn colder
I want to wake up with you next to me
Will you be there

The night is almost getting over
And I don't want us to turn colder
(I want to wake up with you next to me)
You next to me
(Will you be there)
Will you be there

(I know this moment will be over)
You be there
(Tomorrow comes when we are sober)
(Will you be there)

Will you
The night is almost getting over
And I don't want us to turn colder
I want to wake up with you next to me
(Will you be there)
Will you be there
