You're so lovely
i love your company
All i could see is you and me

I dont know if its your eyes that hypnotise me
You hold me tightly when ive been crying
You gave me your heart but i dropped it besides me

You are amazing
You are hypnotising
You are the best friend i have ever had

You just amazing
You just Hypnotise me
You are the best friend i have ever had

You know when im happy you know when im angry
Ill friend you on facebook maybe
You just know me

You are amazing
You are hypnotising
You are the best friend i have ever had

you are just amazing
you just hypnotise me
You are the best friend i have ever had

Do you believe me when im saying this
Im not just playing around
You are the best friend i have ever had
