How can I sleep at night Knowing youâ€™re in
someone elseâ€™s arms
How can I help if I Wish you were still holding me in the
dark
And these tears I cry
I hope that they will finally wash away
All the hurt inside
Iâ€™ll cry tears of joy Instead of tears of pain

Show me the way to be happy, happy.
Show me the way to be happy, happy.

I cannot lie I still believe our love was meant to be
And deep inside I know a world exists with you and me
And the sun wonâ€™t shine
The moon wonâ€™t rise and I canâ€™t even breathe
When youâ€™re far away
Itâ€™s a winterâ€™s day bring summer back to me

Show me the way to be happy, happy.
Show me the way to be happy, happy.
I cannot fake being happy, happy.
Show me the way to be happy, happy.

Maybe someday You will see Iâ€™m the one who can
make you feel
That emotion Iâ€™m searching for You wonâ€™t be
looking anymore.

Show me the way to be happy, happy.
Show me the way to be happy, happy.
I cannot fake being happy, happy.
Show me the way to be happy, happy.
