"I Keep Falling"

You are a habit I can't break
You're an addiction I can't shake
A cigarette, a glass of wine
Another kiss, I cross the line
If you insist, well I won't mind

I keep fallin', fallin'
I keep fallin' For you

The day we met I saw the sign
Replayed in my head for all time
A simple smile, you said hello
The feeling burned into my soul

I knew I could not let you go

I keep fallin', fallin'
I keep fallin' For you, for you
I keep fallin', fallin'
I keep fallin' For you, for you

You keep letting me get closer, closer
Here we are, let's make the most of the love we have
inside

I keep fallin', fallin'
I keep fallin' For you, for you
I keep fallin', fallin'
I keep fallin' For you, for you, for you.
