Saying goodbye to yesterday  
A kiss for luck and I'm on my way  
I thank you for the time we shared  
But baby I'm afraid it'll never be the same

I turn out all the lights and close the door  
Gotta find what I'm looking for in my soul  
Gonna fly on over to the other side  
Making my way across a sky of gold

I'm not looking over my shoulder  
I'm not looking over my shoulder

Gotta keep on movin'  
Gotta keep on movin'  
Gotta keep on movin'  
Gotta keep on movin'

The world keeps spinning round and round  
Gotta take it all in before the clock runs down  
Nothing's gonna keep me standing still  
Gonna shake the hourglass before my time runs out

I'm not looking over my shoulder  
I'm not looking over my shoulder

Gotta keep on movin'  
Gotta keep on movin'  
Gotta keep on movin'  
Gotta keep on movin'

Destiny knows where my heart belongs  
Now I awake to find that life goes on and on.

Gotta keep on movin'  
Gotta keep on movin'  
Gotta keep on movin'  
Gotta keep on movin'
