I was awake for ????
???? ???? sleepless (?) night
But I did not expect
That things would happen to you, that they would
happen to you

But you were taken by surprise
Yeah, you were taken

Oh, I could see it in your eyes
That everything was not all right
???? from wall to wall
Seeing/saying things that I could not recall

But I wanted to give you
Everything you needed that night
Even when the moon shone
You still stayed so strong that night

And I was trying to
Remember who you used to be
Trying to ???? ???? to
???? sitting right next to me

'Cause you were taken by surprise
Yeah, you were taken

And I could see it in your eyes
That everything was not all right
???? from wall to wall
Seeing/saying things that I could not recall

I wanted to give you
Everything you needed that night
Even when the moon shone
You still stayed so strong that night

Oh, how it all went wrong
Are we still trying to move on?/And we still try to move
on
Oh, how it all went wrong

Are we still trying to move on?/And we still try to move
on

And I could see it in your eyes
That everything was not all right
