"Place"

Visit "[Place](#)" on MotoLyrics.com

I see so much now
How my head spins round
Tell me just what to do
'cos I'm lost inside it all

'cos I would like to get to know you
I would like to get to know you
To know you

'cos if there is a place for me, a place for you
This is what I've found

And if there is a place for me, a place for you
This is what I've found

Try to forget how
All these things came round
Tell me just what to do
'cos I'm lost inside it all

'cos I would like to get to know you
I would like to get to know you
To know you

'cos if there is a place for me, a place for you
This is what I've found

And if there is a place for me, a place for you
This is what I've found

So hold you head high
Think about a better time

Hold you head high
Think about

'cos if there is a place for me, a place for you
This is what I've found

And if there is a place for me, a place for you
This is what I've found

If there a place for me, place for you
If there a place for me, a place for you
If there a place for me, a place for you
If there a place for me
